

EasiSolv 55 Stencil Remover Concentrate

Product Description:

EasiSolv™ 55 Stencil Remover Concentrate is a revolutionary, highly concentrated, extremely cost effective, liquid solution designed to aggressively dissolve direct, direct/indirect emulsions, as well as capillary films, dual-cure systems, pure photopolymer and direct projection emulsion systems. EasiSolv 55 Stencil Remover Concentrate will dissolve stencils and provide easy washout with water from all types of screen mesh.

Physical & Chemical Data:

<i>Appearance & Odor:</i>	Clear liquid with mild odor.
<i>Specific Gravity:</i>	1.3 @ 20 °C / 68 °F
<i>Vapor Pressure:</i>	Not applicable.
<i>Vapor Density:</i>	Not applicable.
<i>Boiling Point:</i>	100 °C / 212 °F
<i>pH:</i>	< 1
<i>VOC:</i>	None
<i>Flash Point:</i>	None

Special features:

- EasiSolv 55 is an economical liquid concentrate, which easily mixes with water at a ratio of 1 part chemical to 30 parts water, up to 1 part chemical to 55 parts water, providing unparalleled cost effectiveness.
- EasiSolv 55 is a biodegradable liquid which simplifies use, disposal and environmental concerns.
- EasiSolv 55 is an aggressive stencil stripper on all commonly used stencil systems which will cover the majority of needs, on all mesh, without leaving emulsion haze.
- EasiSolv 55 mixes with water faster and more thoroughly than powders, which eliminates the waste generated by undissolved solids.

Application:

- Mix EasiSolv 55 at a ratio of 1:30 up to 1:55 with water in a plastic container.
- Apply EasiSolv 55 by brush, wipe, scrub pad or spray to both sides of emulsion/film, after ink has been removed.
- High pressure rinse both sides of the screen.
- Flood rinse entire screen with low pressure rinse from the top to remove any debris, splash back and chemical residue.
- If stubborn stains remain, apply an Easiway Systems approved stain remover and high pressure rinse.
