

SECTION 6 - HEALTH HAZARDS (Toxicological Properties)

Routes of entry: Skin contact: Yes Skin Absorption: Yes Eye Contact: Yes Inhalation: Yes Ingestion: Yes

Acute Health Effects and Routes of Potential Entry, Plus Symptoms of Overexposure

- 1. Inhalation:** Irritates eyes, nose, throat, and respiratory tract. May cause central nervous system depression, including one or more of the following: Headache, Dizziness, Incoordination, Unconsciousness, and even Death
 - 2. Skin:** Skin turns white on contact. Wash with large amounts of water. If irritation persists, seek medical attention.
 - 3. Eyes:** Minimally irritating, Wash with large amounts of water.
- Ingestion:** Single dose oral toxicity is considered to be low. Small amounts swallowed incidental to normal handling operations are not likely to cause injury;.

Chronic Health Effects:

No evidence of chronic health effects

Symptoms of Exposure:

Minimally irritating to the eyes, throat and lungs. Mildly irritating to skin

Medical Conditions Generally Aggravated by Exposure:

Preexisting skin disorders may be aggravated by exposure to this product.

Chemicals Listed As a Potential Carcinogens: NTP: **No** I.A.R.C. Monographs: **No** OSHA: **No**

This product is not believed to pose measurable carcinogenic risk when handled as recommended.

SECTION 7 - SPECIAL PROTECTION INFORMATION AND PREVENTIVE MEASURES

Respiratory: The use of respiratory protection depends on vapor concentrations above the time-weighted TLV: Use a NIOSH approved cartridge respirator or gas mask.

Ventilation: Local exhaust, enough to keep PPM below listed levels

Protective Gloves: Impermeable gloves PVA or Nitrile. Consult your safety equipment dealer for compatibility.

Eye Protection: Chemical safety glasses, goggles or face shields.

Protective Equipment: Eye washes and safety showers are recommended in work area.

Hygienic Practices: Contaminated clothing should be removed and washed in hot water with soap.

Waste Information: Small amounts may be flushed down drain. For large amounts dispose of according to all local and provincial regulations.

Handling And Storage:

Keep containers tightly sealed when not in use. Repack only into compatible glass or plastic containers. If transferred, new containers must contain product labels for proper identification, safety, handling and storage.

Other Precautions:

Water may be unsuitable as an extinguishing media, but helpful in keeping adjacent area cool.

In Case of Spill:

Dilute with large amounts of water and allow Hydrogen Peroxide to decompose. May then be discharged into suitable treatment system in accordance with all appropriate government ordinances.

SECTION 8 - FIRST AID MEASURES

Routes of Entry (Emergency and First Aid Procedures)

- 1. Inhalation:** If light headed or having breathing difficulties expose victim to fresh air and/or oxygen. If breathing stops, begin Artificial respiration and seek medical attention.
- 2. Skin:** Wash with soap and water. If irritation from contact persists, seek medical attention.
- 3. Eyes:** Flush immediately with cold water for 15 minutes, and seek medical attention.
- 4. Ingestion:** If swallowed, do not induce vomiting except under the direction of a physician; seek immediate medical attention.
